Safety Information

- Keep the device and its accessories dry. Do not use external heating devices to dry the device and its accessories.
- Do not put the device and its accessories in places of extreme temperature, as this may cause malfunction, fire, or explosion.
- Do not use the device and its accessories in an environment, battery cell, or application, and disable any wireless connections with other devices, to avoid causing electrical interference, fire, or damage to the device and its accessories.
- Do not store products with magnetic media, e.g., magnetic cards, floppy disks, and magnetic pens, for long periods of time.
- Do not put the device and its accessories in microwave ovens, induction cookers, or containers with pressure.
- Do not use or store the device and its accessories in environments that are dusty, damp, dirty, or have magnetic fields.
- Do not drop the device and its accessories or subject them to violent vibrations.
- Do not disassemble or modify the device and its accessories without authorization. Doing so will void the warranty and relieve the manufacturer of any customer service or care of unofficially modified devices.
- Do not dispose of the device and its accessories in ordinary household waste or in fire. Dispose of the device and its accessories in accordance with the laws and regulations applicable in your area.
- Do not step on, pull, or overbend the cables of the device to avoid malfunctions.
- Do not use drying chemicals, cleaning agents, or detergents to clean the device and its accessories.
- Do not charge the device and its accessories for more than 12 hours at a time.
- Do not charge the device and its accessories when the temperature is below 0°C (32°F) or above 45°C (113°F).
- Do not use, store, or transport the device and its accessories near flammable, explosive, or dangerous goods.
- Do not use the device and its accessories if they are damaged, deformed, or have come into contact with liquid. Power off the device immediately and remove the battery if it is removable. Contact an authorized service center for assistance.
- Do not use the device and its accessories in a way that may cause discomfort, symptoms, or illness to you or others. Doing so may affect the device's performance or cause injury.
- Do not use the device and its accessories in a way that may cause damage to your hearing. Prolonged exposure to high volume levels may cause hearing loss.
- Do not use the device and its accessories in a way that may cause damage to your skin. Prolonged exposure to high volume levels may cause skin irritation.
- Do not use the device and its accessories in a way that may cause damage to your eyes. Prolonged exposure to high volume levels may cause eye damage.
- Do not use the device and its accessories in a way that may cause damage to your ears. Prolonged exposure to high volume levels may cause ear damage.
- Do not use the device and its accessories in a way that may cause damage to your mouth. Prolonged exposure to high volume levels may cause mouth damage.
- Do not use the device and its accessories in a way that may cause damage to your nose. Prolonged exposure to high volume levels may cause nose damage.
- Do not use the device and its accessories in a way that may cause damage to your head. Prolonged exposure to high volume levels may cause head damage.
- Do not use the device and its accessories in a way that may cause damage to your neck. Prolonged exposure to high volume levels may cause neck damage.
- Do not use the device and its accessories in a way that may cause damage to your shoulders. Prolonged exposure to high volume levels may cause shoulder damage.
- Do not use the device and its accessories in a way that may cause damage to your arms. Prolonged exposure to high volume levels may cause arm damage.
- Do not use the device and its accessories in a way that may cause damage to your hands. Prolonged exposure to high volume levels may cause hand damage.
- Do not use the device and its accessories in a way that may cause damage to your fingers. Prolonged exposure to high volume levels may cause finger damage.
- Do not use the device and its accessories in a way that may cause damage to your nails. Prolonged exposure to high volume levels may cause nail damage.
- Do not use the device and its accessories in a way that may cause damage to your skin. Prolonged exposure to high volume levels may cause skin damage
