Product overview

Packing List

Please check if the accessories are complete before installation.

USER GUIDE

1.Power on

Connect the camera to power with the adapter and the cable. Wait for about 1 minute until the camera starts speaking.

Note: Make sure it is within range of a 2.4GHz WiFi supported router.

If the camera is not initialized, please reset it by pressing the reset button for 10 seconds.

If the camera is not initialized, it will automatically enter the pairing mode.

2.Download 360 Smart Camera APP

Scan the QR code to download the 360 Smart Camera APP.

3.Add camera

Ensure your phone's WiFi, 360 Smart Camera App and the camera are in the same WiFi network.

Open the 360 Smart Camera App, click "Add Camera" button, and follow the instructions to complete the setup.
