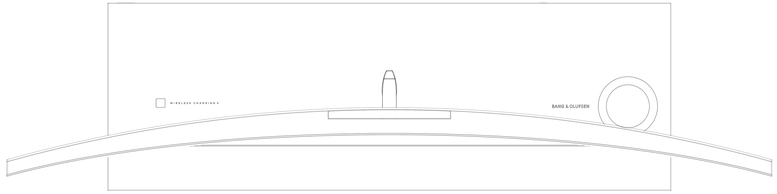
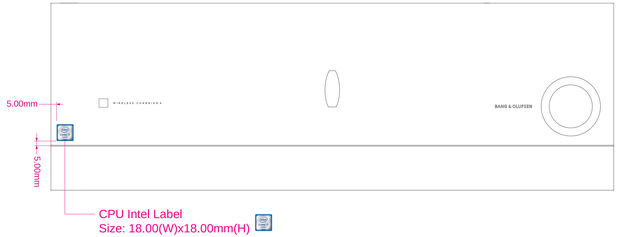
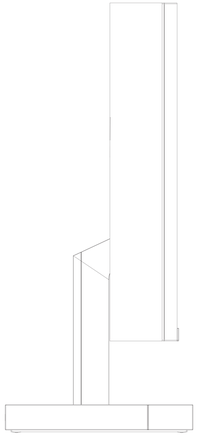
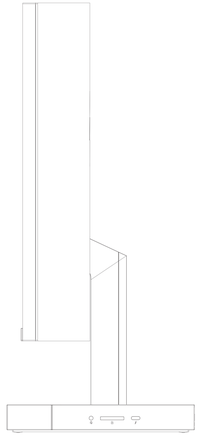
Revision List

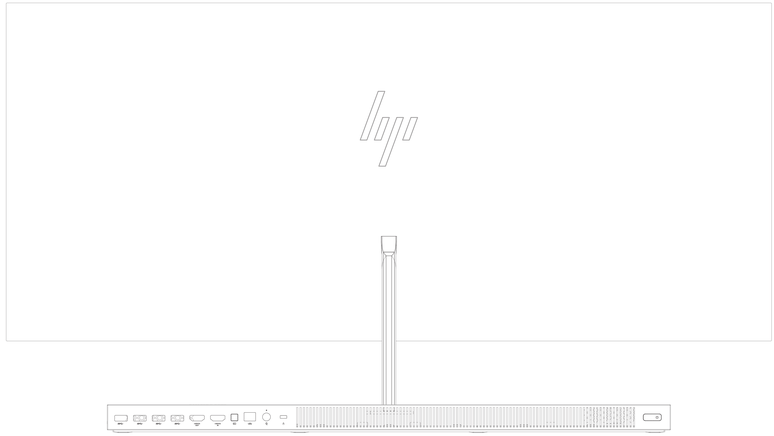
Date/Init.	Comment
09022016	Currected bottom view
07182016	Initial release











Note:
This is inside the unit.

Reserve location for service team use:
*Factory does NOT put label here.
813180-002 service label to be relocated from inside of chassis to this location only if critical information on regulatory label is damaged beyond legibility during a failed service event. Intention is that that main regulatory label will not be damaged during a service event – it should be carefully removed with heat and a scraper, and then re-applied without damage (use additional adhesive if necessary to prevent peeling).
