Jeanette,

On January 23, 2015 I filed a license modification application for call sign E000152. The FCC file number is: SES-MOD-INTR2015-00123.
I paid the fee that same day using pay.gov and my company credit card. I printed the payment confirmation, which image is attached. On IBFS the status of this application
is "Internet not processed" and days to pay is past due. However, as you can see, the fee was paid.
Can you help to correct this error?
Thanks.
