Specifications

Product specifications	Smart projector
Product model	CUBE SLIM
Projection technology	LCD
Resolution	1280 X 720
Turn over	360°
Projection mode	Front/rear desktop & front/rear ceiling projection method
Projection lens	3 glass lenses
Picture ratio	1 6 : 9 & 4 : 3
Bulb type	LED, more than 20,000 hours
Projection optimal size	20 -150 inches
Brightness	300 ANSI Lumens
Operating voltage	100v - 240v~50hz/60hz
Machine size	190 (L) *155 (W) *71.8 (H) mm
Net weight	Approx . 0.93kg

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any inte rference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interferencto radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

•Increase the separation between the equipment and receiver.

• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

•Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
