JULY 25, 2006

Equipment Authorization Division
Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

FCC ID: H4JVT-4E150
Product Name: VT-4E150 VHF TRANSMITTER

Compliance with 47 CFR Part 90.203 (g), (j)(3)

Pursuant to 47 CFR Sections 90.203(g) and (j)(3) of the commission's rules we hereby certify that the above listed transmitter is fully compliant with these guidelines for the following listed reasons.

The VT-4E150 transmit frequency is capable of being programmed within the range of 136 to 174 MHz via an external USB connection and Radio Services Software (RSS) package, which is made available only to service and/or maintenance personnel.

The narrowband setting of this equipment operates from 0.5 to 8 Watts and meets a spectrum efficiency standard of one voice channel per 12.5 kHz of channel bandwidth in analog transmit mode. In the digital transmit mode, the equipment supports the minimum data rate of 9600 bits per second per 12.5 kHz of channel bandwidth.
