Dear Richard

My explain for this comment:

RE1:
I upload (BS01T)_testrpt_REV-1.pdf to ATCB web. Please see the page 4. I add standard:ANSI C63.4 and KDB58074

RE2:
The device only connects to a PC in order to get DC from a USB port, absolutely no data transfer is possible.So I think it is not a equipment authorization as a computer peripheral. Don't do FCC DOC.

Thanks you for your help.

Best Regards!
