DX2016Q
Toy RC Off-Road Racer

SUPER CHARGED FAST OFF-ROAD POWER!

EXCITING RACING ACTION!

- High-Speed 1/16 Scale Race Car
- Full-function Remote Control For Wireless Racing Action
- Oversized Knobby Tires With Custom 4-wheel Suspension

BATTERY INSTALLATION

Car requires 4 "AA" 1.5V batteries (not included). The remote control requires 1 "9V" battery (not included).

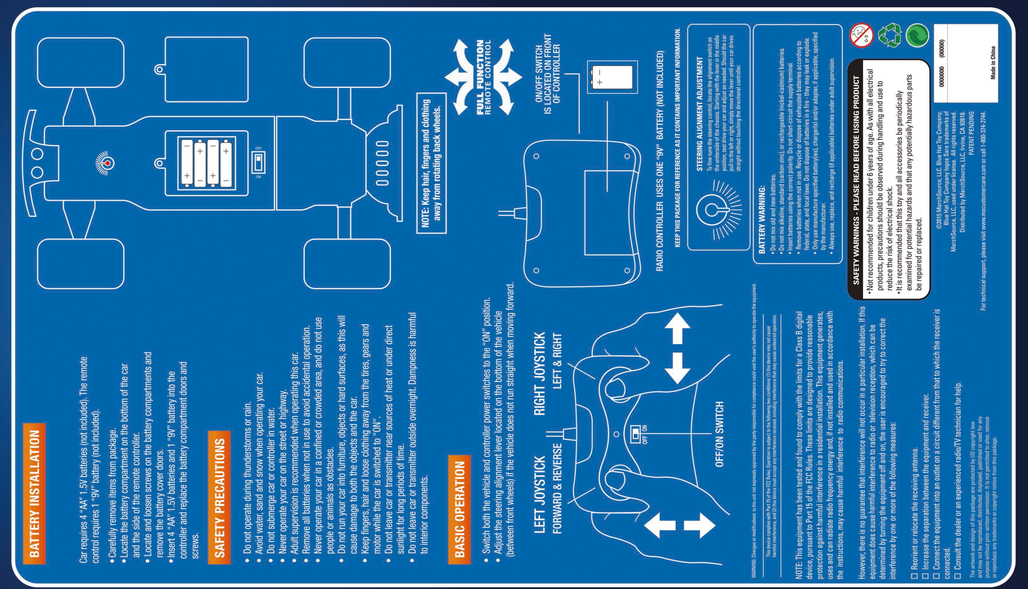
- Carefully remove items from package.
- Locate the battery compartment on the bottom of the car and the side of the remote controller.
- Locate and loosen screws on the battery compartments and remove the battery compartment doors.
- Insert 4 "AA" 1.5V batteries and 1 "9V" battery into the controller and replace the battery compartment doors and screws.

SAFETY PRECAUTIONS

- Do not operate during thunderstorms or rain.
- Avoid water, sand and snow when operating your car.
- Do not damage your car or controller by using.
- Never operate your car on the street or highway.
- Adult supervision is recommended when operating this car.
- Remove all batteries when not in use to avoid accidental operation.
- Never operate your car in a confined or crowded area, and do not use people or animals as obstacles.
- Do not operate your car near furniture, objects or hard surfaces, as this will cause damage to both the objects and the car.
- Keep fingers, hair and loose clothing away from the tires, gears and motor while the car is switched to "ON".
- Do not leave car or transmitter near sources of heat or under direct sunlight for long periods of time.
- Do not leave car or transmitter outside overnight. Dampness is harmful to interior components.

BASIC OPERATION

- Switch both the vehicle and controller power switches to the "ON" position.
- Adjust the steering alignment lever located on the bottom of the vehicle (between front wheels) if the vehicle does not run straight when moving forward.



STEERING ALIGNMENT ADJUSTMENT

This item is the steering controls. Locate the alignment screw on the bottom of the vehicle. Use a small screwdriver to adjust the steering. Turn the screw one-quarter turn at a time and check to see if the car drives straight without touching the directional controller.

BATTERY WARNING

- Batteries: 4 AA batteries.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- Install batteries properly, observing the polarity diagram inside the battery compartment.
- Remove batteries when not in use. Recycle or dispose of exhausted batteries according to local, state, and local laws. Do not dispose of batteries in fire. Very many are recyclable.
- Remove batteries if the product will be stored for an extended period of time. Exhausted batteries left in the product may leak and damage the product. Never use batteries supplied by the manufacturer.
- Never use alkaline and rechargeable (if applicable) batteries side-side in operation.

SAFETY WARNINGS - PLEASE READ BEFORE USING PRODUCT

- Not recommended for children under 6 years of age. As with all electrical products, precautions should be observed during handling and use to reduce the risk of electric shock.
- It is recommended that children handle all accessories be periodically examined for potential hazards and that any potentially hazardous parts be repaired or replaced.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

☐ Reorient or relocate the receiving antenna.
☐ Increase the separation between the equipment and receiver.
☐ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
☐ Consult the dealer or an experienced radio/TV technician for help.
