Important safety instruction

- Please read the instruction carefully, keep it safe and use for future reference.
- Follow all warnings and instructions marked on the product.
- Unplug the product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use only a damp cloth for cleaning.
- Do not use the product near water, for example, near a bathtub, washbasin, kitchen sink or laundry tub, in a wet basement or near a swimming pool or in a place with an atmosphere saturated with moisture.
- Do not place the product on an unstable cart, stand or table. The product may fall, causing serious damage to the product.
- Slots and openings in the back or bottom of the product are provided for ventilation. To ensure reliable operation of the product and to protect it from overheating, these openings must not be blocked or covered.
- The product should be placed only in an upright position.
- Do not place any heavy items on the product.
- Do not place any naked flame sources, such as lighted candles, on the product.
- When disposing of the product, please comply with the relevant laws and regulations.
- Do not dismantle the product.
- Do not place the product in an enclosed place without ventilation.
- Do not place any sources of strong electromagnetic radiation on the product.
- Do not expose the product to direct sunlight.
- Do not use the product for prolonged periods at high volume. Exposure to high volume may cause permanent hearing damage. Use caution when using headphones.
- Do not attempt to disassemble the product. Except for the battery, there are no other parts that can be repaired by the user.
- Do not place or drop foreign objects on the product.
- Do not expose the product to liquids, rain, or moisture.
- Do not touch the power cord with wet hands.
- Stop using the product if any abnormal phenomena occur.
- Keep the product away from children.
- Do not use the product for purposes other than those specified.
- Do not modify the product.
- Do not place the product in an environment where temperatures may be too high or too low.
- Do not use the product during a thunderstorm to avoid the risk of electric shock.
- Do not place the product in an environment where dust is prevalent.
- Do not place the product in a strong magnetic field environment.
- Do not place the product in a strong vibration environment.
- Do not use the product in a place with poor ventilation.
- Do not use the product in a place with strong sunlight.
- Do not use the product in a place with high humidity.
- Do not use the product in a place with high temperature.
- Do not use the product in a place with low temperature.
- Do not use the product in a place with dust.
- Do not use the product in a place with strong electromagnetic radiation.
- Do not use the product in a place with strong vibration.
- Do not use the product in a place with strong magnetic field.
- Do not use the product in a place with poor ventilation

FCC Regulatory Compliance

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Compliance
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

ISED Regulatory compliance

This device contains licence-exempt transmitters that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s).
Operation is subject to the following two conditions:
This device may not cause interference.
This device must accept any interference, including interference that may cause undesired operation of the device.
L'émetteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
L'appareil ne doit pas produire de brouillage;
L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
Cet équipement est conforme aux limites d'exposition aux radiations IC CNR-102 établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et votre corps.
