Subject; **Modular Transmitter Application**

Company name: Hua Yin Technology (Dongguan) Co., Ltd.
FCC ID: 2BFBY-MIDIMATE

Dear Sir/Madam,

This letter includes the FCC application requirements for Modular Transmitter Approval Request for;-

FCC KDB 996369 D01 'Module Certification Guide v02; and
FCC KDB 996369 D03 OEM Manual v01

In accordance with 47CFR 15.212 Modular Transmitters and KDB 996369 D01 'Module Equip Auth Guide v02'. FCC ID: 2BFBY-MIDIMATE has been examined against the following requirements.

Requirement per 15.212 and KDB 996369 D01	Explanation from Grantee (do not write yes/no, but explain why product complies/how it is achieved)
The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly.	The radio portion of this module is not shielded, please see exhibition External Photo.
The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal.	The EUT has buffered data inputs; it is integrated in chip BK2461.
The module must contain power supply regulation on the module.	The EUT interface provides 3.3 VDC, and on board GPIO Pins have its own VCO inside.
The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per §§ 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b).	The EUT meets the antenna requirements. It is PCB antenna. Refer to the photo of antennas are shown in the Internal Photos.
The module must demonstrate compliance in a stand-alone configuration.	The EUT is tested in a stand alone configuration via a DC Power Supply. Please see the photo of test setup photo of the report.

The module must be labeled with its permanently affixed FCC ID label, or use an electronic display (see KDB Publication 784748).	The EUT has its own FCC ID and the label is visible.
The module must comply with all specific rules applicable to the transmitter, including all the conditions provided in the integration instructions by the grantee.	The EUT is comply with all applicable FCC Rules. Warning detail refer to the user manual.
The module must comply with RF exposure requirements	The EUT is comply with all applicable RF exposure requirements. See this RF exposure report.

Integration Instructions for host product manufacturers

The following items are submitted in support of application for Modular Transmitter FCC ID as noted above as required by the FCC KDB 996369 D03 OEM Manual v01.

These items are provided as integration instructions for host product manufacturers (e.g., OEM instruction manual) to use when integrating a module in a host product.

Any requirements that are not applicable to the Module are as indicated below.

Summary of requirements and Checklist. Refer to the KDB for description of the complete requirements;

KDB Ref Sect	Requirements of KDB 996369 D03	User Manual Page Number reference
2.2	List of applicable FCC rules	see user manual page 4
2.3	Summarize the specific operational use conditions	see user manual page 4
2.4	Limited module procedures	see user manual page 4
2.5	Trace antenna designs	see user manual page 4
2.6	RF exposure considerations	see user manual page 4
2.7	Antennas	see user manual page 4
2.8	Label and compliance information	see user manual page 5
2.9	Information on test modes and additional testing requirements	see user manual page 5
2.10	Additional testing, Part 15 Subpart B disclaimer	see user manual page 5
