In Application of 3G Wireless, LLC

501 McCormick Drive, Suite B, Glen Burnie, Maryland 21061

To Operate in the 410MHz Telemetry

Band to Provide TV Coverage in the Continental United States.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 410MHz

Telemetry Band pursuant to Section 21.25 of the Commission's Rules. 3G

Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequencies

centered at 410 MHz with a 1 MHz bandwidth on January 13, 2020 with intermittent usage. As

explained below, 3G Wireless, LLC is filing an STA request for the Live Television Transmission of ESPN

College Football covering the "College Football National Championship" football game at Mercedes Benz

Superdome in New Orleans, LA. 3G Wireless, LLC submits that there are extraordinary circumstances

warranting a grant of the STA request. ESPN/ABC has contracted 3G Wireless, LLC to provide the

necessary microwave for the Live Transmission of this event. Due to the extreme frequency congestion

in the New Orleans area, coupled with the added congestion from traditional television and news

coverage of the special event, 3G Wireless requests the use of channels in the 410MHz telemetry band.

3G Wireless, LLC certifies that the operation of the requested channels for the purposes specified herein

will not cause interference to any established stations.

Grant of the instant request for STA in the 410 MHz Band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the Production Company.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:

Applicants Name: 3G Wireless, LLC
