To operate at 2375MHz The Hemisfair in San Antonio, TX on 3/29/2018 through 4/1/2018.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate at 2375MHz pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequencies centered at 2375MHz with an 8 MHz bandwidth from March 29, 2018 through April 1, 2018 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request to provide one RF camera system to the NCAA Music Festival for TNDV's presentation of "NCAA Music Festival". 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request. TNDV has contracted 3G Wireless, LLC to provide a wireless camera system to operate within the Hemisfair area in San Antonio, TX area for their telecasts. Due to the extreme frequency congestion throughout the United States and San Antonio coupled with the added congestion from traditional Television and News coverage of area events, 3G Wireless requests the use of this channel.

3G Wireless, LLC certifies that the operation of the requested channel for the purposes specified herein will not cause interference to any established stations. Grant of the instant request for STA for 2375MHz would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote camera system for television coverage. The proposed service would enhance coverage of the events by providing on the spot pictures and camera control from mobile locations that would not otherwise be available to the production company. In accordance with Section 74.633 of the commission's Rules, the following is provided:
