In re Application of 3G Wireless, LLC

501 McCormick Drive Suite B, Glen Burnie, Maryland 21061

To Operate in the 2240-2290MHz and 1470-1480MHz Telemetry
Band to Provide TV Coverage in Sunrise, Florida.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 2240-2290MHz and 1470-1480MHz Telemetry Bands pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequencies centered at 1476MHz with a 16MHz bandwidth and 2246MHz, 2266MHz, and 2286MHz with an 8MHz bandwidth from May 01, 2019 through May 6, 2019 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request for the Live Television Transmission of the "Wings for Life World Run" in Sunrise, Florida. 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request. Red Bull Media has contracted 3G Wireless, LLC to provide the necessary microwave for the Live Transmission of this Event. Due to the extreme frequency congestion in the Sunrise area, coupled with the added congestion from traditional Television and News coverage of the special event, 3G Wireless requests the use of channels in the 2240-2290MHz and 1470-1480MHz Telemetry Band. 3G Wireless, LLC certifies that the operation of the requested channels for the Purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 2.2GHz and 1.4GHz Band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the Production Company. All additional required documents will be filed through the AFTRCC for the L-Band 1.4MHz frequency requested.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
