To Operate in the 2360-2390MHz Telemetry
Bands to Provide TV Coverage in Washington, D.C..

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 2360-2390MHz Telemetry Band pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequency centered at 2368MHz with a 16MHz bandwidth from June 08, 2017 through July 08, 2017 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request for the Live Television Transmission of The Capitol Pride Festival and the Independence Day Celebration. 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of this STA request.

JetWave has contracted 3G Wireless, LLC to provide the necessary microwave for the Live Transmission of these events. Due to the extreme frequency congestion in Washington, D.C., coupled with the added congestion from traditional Television and News coverage of the special events, 3G Wireless requests the use of channels in the 2360-2390MHz Telemetry Bands.

3G Wireless, LLC certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 2.3GHz Band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for these events. The proposed service would enhance coverage of the events by providing on the spot pictures from mobile locations that would not otherwise be available to the Production Company. 3G Wireless, LLC, is in the process of obtaining the consent of the relevant frequency coordinators for this project, including AFTRCC. AFTRCC has indicated its intent to forward the results of the coordination to the Commission.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:

Applicants Name: 3G Wireless, LLC
Address: 501 McCormick Drive, Suite B
Glen Burnie Maryland 21061

Type and Manufacturer
Of Equipment: Janteq Campac-2

Power Output: 100mw

ERP: 200mW

Emission: 16M00D7W

Frequencies: 2368.0MHz, 16M00D7W @200mW

Area of Operation: 10Km

Coordinates: The National Mall, Washington, D.C. N 38 53 22.63

W077 01 22.72

Antenna Height: 6' AGL

Antenna: 2dB Omni

Antenna Gain: 2dBi

Dates of Operation: June 08, 2017 – July 08, 2017
(Intermittent Usage during this day)

3G Wireless, LLC requests an STA to operate on the above-referenced frequency for a period not to exceed 60 days. No application for regular authorization will subsequently be filed.

3G Wireless, LLC certifies that no party to the application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C § 853(a).

Should you have any questions regarding this matter, please contact, John Winch, by telephone 626 676 1470.

Respectfully submitted,

By: John Winch
Frequency Coordinator

cc: Wayne Morris, AFTRCC
