To Operate in the 2200-2290MHz and 1400MHz Telemetry
Bands to Provide TV Coverage in Oklahoma City, Oklahoma.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 2200-2290MHz and 1400MHz Telemetry Band pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequency centered at 2286MHz, 2266MHz, and 1476MHz with an 8MHz bandwidth from May 28, 2017 through June 07, 2017 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request for the Live Television Transmission of ESPN's coverage of the Women's College World Series at the ASA Hall of Fame Stadium in Oklahoma City, Oklahoma. 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request. ESPN has contracted 3G Wireless, LLC to provide the necessary microwave for the Live Television Transmission of this event. Due to the extreme frequency congestion in Oklahoma City, coupled with the added congestion from traditional Television and News coverage of the special event, 3G Wireless requests the use of channels in the 2200-2290MHz and 1400MHz Telemetry Bands. 3G Wireless, LLC certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations. Grant of the instant request for STA in the 2.2GHz and 1.4GHz Bands would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the Production Company.

3G Wireless, LLC. Is filing the additional forms required for the 1400MHz band through the AFTRCC.
