To operate in the 2.2GHz Band and the UHF Band to provide
TV coverage in Salinas, California.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 2.2GHz Band, and the UHF Band pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequencies centered at 2204MHz, 2214MHz, 2224MHz and 2278MHz with an 8MHz bandwidth, 2242MHz, 2254MHz and 2266MHz with a 10MHz bandwidth and lastly, 2287MHz and 2296MHz with a 7MHz bandwidth from July 06, 2017 through July 10, 2017 with intermittent usage. Additionally, 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the UHF frequencies centered at 458.7125MHz, 468.7125MHz, 457.8500MHz, 467.8500MHz, 456.9350MHz, 466.9350MHz, 455.4000MHz, 465.4000MHz with a 12.5KHz bandwidth from July 06, 2017 through July 10, 2017 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request for the Live Television Transmission of a Dorna Sports Television Event, "FIM Superbike World Championship" to be held at the Mazda Raceway Laguna Seca in July. 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request.

Dorna Sports has contracted 3G Wireless, LLC to provide the necessary wireless systems for the Live Television Transmission of this Event. Due to the extreme frequency congestion in the Monterey area, coupled with the added congestion from traditional Television and News coverage of the special event, 3G Wireless requests the use of channels in the 2.2GHz and UHF Bands.

3G Wireless, LLC certifies that the operation of the requested channel for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 2.2GHz and the UHF bands would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video and audio coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the production company.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
