April 27, 2018 In re Application of 3G Wireless, LLC 501 McCormick Drive, Suite B Glen Burnie, Maryland 21061 To Operate in the 2220-2280MHZ Telemetry Band to Provide TV Coverage in the Continental United States. ATTN.: Microwave Branch 3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 2220-2280MHz Telemetry Band pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequencies centered at 2233MHz,

2243MHz, 2253MHz, 2263MHz, and 2273MHz with an 8MHz bandwidth from May 16, 2018 through August 26, 2018 with intermittent usage.

As explained below, 3G Wireless, LLC is filing an STA request for the Live Television Transmission of the Lucas Oil Motocross series within the United States. 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request. Lucas Oil Productions has contracted 3G Wireless, LLC to provide the necessary microwave for the Live Transmission of this event. Due to the extreme frequency congestion in the United States, coupled with the added congestion from traditional Television and News coverage of the special event, 3G Wireless requests the use of channels in the 2220-2280MHz Telemetry Band. 3G Wireless, LLC certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 2.2MHz Band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the Production Company.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:				
Applicants Name: 3G Wireless, LLC				
Address: 501 McCormick Drive, Suite B				
Glen Burnie Maryland 21061				
Type and Manufacturer				
Of Equipment:				
Domo Tactical Communications (DTC) Solo 7 TX				
Janteq Campac2 TX				
Power Output: 100mw				
ERP: 100mW				
Emission: 8M00D7W and 16M00D7W				
Frequencies:				
2233.0MHz, 8M00D7W @100mW				
2243.0MHz, 8M00D7W @100mW				
2253.0MHz, 16M00D7W @100mW				
2263.0MHz, 16M00D7W @100mW				
2273.0MHz, 16M00D7W @100mW				
Area of Operation: Continental United States 2Km around race tracks.				
Coordinates:
