To operate in the 1.4GHz Band to provide
TV coverage in New York City, New York.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 1.4GHz Band pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequencies centered at 1435MHz, 1461MHz, 1477MHz, 1495MHz and 1515MHz with a 16MHz bandwidth from June 05, 2016 through June 06, 2016 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request for the Live Television Transmission of a T-Mobile commercial shoot to be held in Times Square in New York City. 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request.

Pixel Corp has contracted 3G Wireless, LLC to provide the necessary wireless systems for the Live Microwave Transmission of this Event. Due to the extreme frequency congestion in the New York City area, coupled with the added congestion from traditional Television and News coverage of the special event, 3G Wireless requests the use of channels in the 1.4GHz Band.

3G Wireless, LLC certifies that the operation of the requested channel for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 1.4GHz band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this Event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the production company. 3G Wireless, LLC is in the process of obtaining the consent of the relevant frequency coordinators for this project, including AFTRCC. AFTRCC has indicated its intent to forward the results of the coordination to the Commission.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
