To operate in the 2.3GHz Band to provide TV coverage in Timonium, Maryland.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 2.3GHz Band pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequencies centered on 2368MHz and 2383MHz with a 14MHz bandwidth from June 18, 2016 through June 19, 2016 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request for the Live Television Transmission of a Maryland Public Television production of a "Salute to Vietnam Veterans" to be held at the Maryland State Fairgrounds in Timonium, Maryland. 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request.

This Is It! StageWorks, LLC has contracted 3G Wireless, LLC to provide the necessary wireless systems for the Live Microwave Transmission of this Event. Due to the extreme frequency congestion in the Maryland area, coupled with the added congestion from traditional Television and News coverage of area events, 3G Wireless requests the use of channels in the 2.3GHz Band.

3G Wireless, LLC certifies that the operation of the requested channel for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 2.3GHz band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this Event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the production company. 3G Wireless, LLC is in the process of obtaining the consent of the relevant frequency coordinators for this project, including AFTRCC. AFTRCC has indicated its intent to forward the results of the coordination to the Commission.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
