In Application of 3G Wireless, LLC, 501 McCormick Drive, Suite B, Glen Burnie, Maryland 21061

To Operate in the 1456-1474 MHz Telemetry

Band to Provide TV Coverage in the Continental United States.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 1456-1474 MHz Telemetry Band pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grants it temporary authority to operate on the frequencies centered at 1460MHz and 1470MHz with an 8 MHz bandwidth on July 11, 2021 and July 18, 2021 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request for the Live Television Transmission of Fox Sports Gold Cup Group Stage Soccer at Children's Mercy Park in Kansas City, KS. 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request. Fox Sports has contracted 3G Wireless, LLC to provide the necessary microwave for the Live Transmission of these events. Due to the extreme frequency congestion in the Kansas City, KS area, coupled with the added congestion from traditional television and news coverage of the special event, 3G Wireless requests the use of channels in the 1456-1474 MHz telemetry band. 3G Wireless, LLC certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 1456-1474 MHz Band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the Production Company. 3G Fully intends to coordinate and reach out to AFTRCC for this 1.4MHz request.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:

Applicants Name: 3G Wireless, LLC
