In Application of 3G Wireless, LLC

501 McCormick Drive, Suite B, Glen Burnie, Maryland 21061

To Operate in the 3462-3490MHz Telemetry Band to Provide TV Coverage at Keenland Association Race Track.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 3462-3490MHz Telemetry Bands pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequencies centered at 3466MHz and 3486MHz with an 8MHz bandwidth from July 9, 2020 to July 12, 2020 with intermittent usage.

As explained below, 3G Wireless, LLC is filing an STA request for the Live Television Transmission from Keenland Association Race Track in Lexington, KY for TVG's presentation of "Keenland Summer Meet".

3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request. TVG has contracted 3G Wireless, LLC to provide the necessary microwave for the Live Transmission of this Event. Due to the extreme frequency congestion in the Lexington, KY area, coupled with the added congestion from traditional Television and News coverage of the special event, 3G Wireless requests the use of channels in the 3462-3490MHz Telemetry Band. 3G Wireless, LLC certifies that the operation of the requested channels for the Purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 3.4MHz Band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the Production Company.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
