In re Application of

3G Wireless, LLC
501 McCormick Drive, Suite B
Glen Burnie, MD 21061

To operate at 2500-2690MHz and the 4400-4940MHz Telemetry Band in Cleveland, Ohio.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate within the 2500-2690MHz and the 4400-4940MHz telemetry bands pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequencies centered on 2294MHz, 2504MHz, 2514MHz, 2524MHz, 2534MHz, 2544MHz, 2554MHz, 2604MHz, 2614MHz, 2624MHz, 2634MHz, 2644MHz, 4504MHz, 4514MHz, 4524MHz, 4534MHz, 4544MHz, 4554MHz, 4604MHz, 4614MHz, 4524MHz, 4634MHz, 4644MHz, 4654MHz with an 8MHz bandwidth from July 14, 2016 through July 29, 2016 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request to assist the Election Wireless Committee allocate the RF spectrum surrounding the Democratic National Convention at the Wells Fargo Center for all RF vendors. 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request.

The Election Wireless Committee has contracted 3G Wireless, LLC to ensure the coherent coordination of the RF spectrum surrounding the venues of the Democratic National Convention in Philadelphia, Pennsylvania for all RF vendors. Due to the extreme frequency congestion in the Philadelphia Area, coupled with the added congestion from traditional Television and News coverage of area events, 3G Wireless requests the use of these channels.

3G Wireless, LLC certifies that the operation of the requested channel for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA for 2.5GHz and the 4.4GHz telemetry bands would serve the public interest by presenting 3G Wireless, LLC with an opportunity to assist the Election Wireless Committee in providing coherent spectrum allocation to all RF vendors for the event. The proposed service would enhance coverage of the events by providing on the spot pictures and camera control from mobile locations that would not otherwise be available to the production companies.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
