To Operate in the 1435-1525MHz and the 2200-2290MHz Telemetry Band to Provide TV Coverage in the Salt Lake City, Utah area.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 1435-1525MHz and 2200-2290MHz Telemetry Bands pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it special temporary authority to operate on the frequencies centered on 1456.0MHz, 1476.0MHz, 1496.0MHz, 1516.0MHz, with a 16 MHz bandwidth and 2206.0MHz, 2218.0MHz, 2230.0MHz, 2242.0MHz with an 8MHz bandwidth from July 28, 2016 through August 08, 2016 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request for the live television transmission of "The Tour of Utah" road bicycle race. 3G Wireless submits that there are extraordinary circumstances warranting a grant of the STA request.

KJZZ-TV and Medalist Sports have contracted 3G Wireless, LLC to provide the necessary microwave for the live transmission of this seven stage event. Due to the extreme frequency congestion in the Salt Lake City, Utah area, coupled with the added congestion from traditional Television and News coverage of area special events, 3G Wireless, LLC requests the use of channels in the 1435-1525MHz and 2200-2290MHz Telemetry Band. A complete map of the race stages can be found on the Tour of Utah web-site, <https://www.tourofutah.com/stages>.

3G Wireless, LLC certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 1.4GHz and 2.2GHz band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations along the race route that would not otherwise be available to the Production Company. 3G Wireless, LLC is in the process of obtaining the consent of the relevant frequency coordinators for this project, including AFTRCC. AFTRCC has indicated its intent to forward the results of the coordination to the Commission.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
