In re Application of 3G Wireless, LLC

501 McCormick Drive, Suite B, Glen Burnie, MD 21061

To operate at 2286MHz throughout the continental United States on an "as needed" basis.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate at 430.0750 KHz pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequency centered at 430.0750KHz with a 12 KHz bandwidth from July 23, 2020 through September 6, 2020 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request to provide one RF camera system camera control to Various baseball stadiums throughout the country during the Major League Baseball season for ESPN's presentation of "Sunday Night Baseball". 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request. ESPN has contracted 3G Wireless, LLC to provide wireless camera systems to operate within the Major League Baseball stadiums throughout the continental United States for their Sunday Night Baseball telecasts. Due to the extreme frequency congestion throughout the United States, coupled with the added congestion from traditional Television and News coverage of area events, 3G Wireless requests the use of these channels. 3G Wireless, LLC certifies that the operation of the requested channel for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA for 430.0750KHz would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote camera systems for television coverage. The proposed service would enhance coverage of the events by providing on the spot pictures from mobile locations that would not otherwise be available to the production company.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:

Coordinates:

Wrigley Field	09.06.2020	N 41 56 52
Chicago, IL		W 87 39 20
