In re Application of

3G Wireless, LLC 7501 McCormick Drive, Suite B Glen Burnie, MD 21061

To Operate in the 2350-2390MHz and 1435-1525MHz Telemetry Band to Provide TV Coverage in the Denver, Colorado area.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 2260-2298MHz and the 1450-1520MHz Telemetry Bands pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it special temporary authority to operate on the frequencies centered on 2264MHz, 2274MHz, 2284MHz, 2294MHz with an 8MHz bandwidth, 1456MHz, 1476MHz, 1496MHz and 1516MHz with an 8 MHz bandwidth from August 2, 2018 through August 13, 2018 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request for the live television transmission of "The Tour of Utah" road bicycle race. 3G Wireless submits that there are extraordinary circumstances warranting a grant of the STA request.

Utah Jazz/KJZZ/KFAN has contracted 3G Wireless, LLC to provide the necessary microwave for the live transmission of this six-stage event. Due to the extreme frequency congestion in the Utah area, coupled with the added congestion from traditional Television and News coverage of the special event, 3G Wireless, LLC requests the use of channels in the 2260-2298MHz and the 1450-1520MHz Telemetry Band. A complete map of the race stages can be found on the Tour of Utah website, <https://www.tourofutah.com/stages>

3G Wireless, LLC certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 2.2GHz, 1.4GHz and 1.5GHz band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations along the race route that would not otherwise be available to the production company. 3G Wireless, LLC is in the process of obtaining the consent of the relevant frequency coordinators for this project, including AFTRCC. AFTRCC has indicated its intent to forward the results of the coordination to the Commission.
