In Application of 3G Wireless, LLC, 501 McCormick Drive, Suite B, Glen Burnie, Maryland 21061

To Operate in the 2241-2299MHz Telemetry Band to Provide TV Coverage in the Continental United States.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 2241-2299MHz

Telemetry Band pursuant to Section 21.25 of the Commission's Rules. 3G Wireless,

LLC requests that the Commission grant it temporary authority to operate on the frequencies centered at 2245MHz, 2255MHz, 2265MHz, 2275MHz, 2285MHz and 2295MHz with 8MHz bandwidth

for Thursday Night Football and 2243.5MHz, 2261.5MHz and 2279.5MHz for Monday Night Football

from September 13, 2020 until September 18, 2020 with intermittent usage. As explained below, 3G

Wireless, LLC is filing an STA request for the Live Television Transmission of Fox Sports coverage of Fox

NFL Thursday Night Football and ESPN Monday Night Football Week one season games. 3G Wireless, LLC

submits that there are extraordinary circumstances warranting a grant of the STA request. Fox Sports

and ESPN has contracted 3G Wireless, LLC to provide the necessary microwave for the Live Transmission

of this event. Due to the extreme frequency congestion in the United States, coupled with the added

congestion from traditional television and news coverage of the special event, 3G Wireless requests the

use of channels in the 2241-2299MHz telemetry band. 3G Wireless, LLC certifies

that the operation of the requested channels for the purposes specified herein will not cause

interference to any established stations.

Grant of the instant request for STA in the 2.2MHz would serve the public interest

by enabling 3G Wireless, LLC to supply the requested remote video coverage for this event. The

proposed service would enhance coverage of the event by providing on the spot pictures from mobile

locations that would not otherwise be available to the Production Company

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
