To Operate in the 2360-2390 MHz Telemetry

Band to Provide TV Coverage in Liberty State Park In New Jersey.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 2360-2390 MHz Telemetry Bands pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequencies centered at 2364MHz, 2374MHz and 2384MHz with an 8MHz bandwidth from October 16, 2018 through October 20, 2018 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request for the live television transmission at The Fairplex in Pomona, CA for the "Red Bull Straight Rhythm" event. 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request. Red Bull Media House has contracted 3G Wireless, LLC to provide the necessary microwave for the live transmission of this Event. Due to the extreme frequency congestion in the Pomona/Los Angeles area, coupled with the added congestion from traditional television and news coverage of the special event, 3G Wireless requests the use of channels in the 2360-2390 MHz telemetry band. 3G Wireless, LLC certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations. Grant of the instant request for STA in the 2.3MHz band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the production company. 3G Wireless, LLC is in the process of obtaining the consent of the relevant frequency coordinators for this project, including AFTRCC. AFTRCC has indicated its intent to forward the results of the coordination to the Commission.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
