In re Application of

3G Wireless, LLC
501 McCormick Drive, Suite B
Glen Burnie, MD 21061

To operate at 2274MHz, 2284MHz and 2294MHz throughout the continental United States on an "as needed" basis.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate within the 2200-2290MHz band pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequencies centered at 2274MHz and 2284MHz and 2294MHz with an 8MHz from January 06, 2017 through May 06, 2017 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request to provide three RF camera systems to various stadiums throughout the country for the Monster Energy Supercross motocross season. 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request.

ESPN has contracted 3G Wireless, LLC to provide wireless camera systems to operate within stadiums throughout the continental United States for their Supercross motocross telecasts. Due to the extreme frequency congestion throughout the United States, coupled with the added congestion from traditional Television and News coverage of area events, 3G Wireless requests the use of these channels.

3G Wireless, LLC certifies that the operation of the requested channel for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA for 2.2GHz Band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote camera systems for television coverage. The proposed service would enhance coverage of the events by providing on the spot pictures and camera control from mobile locations that would not otherwise be available to the production company.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:

Applicants Name: 3G Wireless, LLC
Address: 501 McCormick Drive, Suite B
Glen Burnie, MD 21061

Type and Manufacturer
Of Equipment: Janteq CamPac2

Power Output: 100mw

ERP: 200mw

Emission: 8M00D7W

Frequency: 2274MHz
2284MHz
2294MHz

Area of Operation: Continental United States .5km around stadiums

Coordinates:	Angel Stadium	01.06-07.2017	N 33 48 01.11
