To Operate in the 2250-2290 MHz Telemetry

Band to Provide TV Coverage in the Continental United States.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 2250-2290 MHz Telemetry Band pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequencies centered at 2256MHz, 2266MHz, 2276MHz and 2286MHz with an 8MHz bandwidth from October 31, 2018 through November 1, 2018 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request for the Live Television Transmission of 3Rd and Lindsley Music hall concert for CMT Network at 3rd and Lindsley Music Hall, Nashville, TN. 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request. TNDV has contracted 3G Wireless, LLC to provide the necessary microwave for the Live Transmission of this event. Due to the extreme frequency congestion in the Nashville area, coupled with the added congestion from traditional television and news coverage of the special event, 3G Wireless requests the use of channels in the 2250-2290MHz telemetry band. 3G Wireless, LLC certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 2.2GHz Band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the Production Company.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
