To operate at 2200-2290MHz Telemetry Band in Nashville, Tennessee.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate within the 2200-2290MHz telemetry band pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequency centered on 2277MHz with a 16MHz bandwidth from March 09, 2015 through March 15, 2015 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request to provide RF camera coverage for the 2015 SEC NCAA Basketball Tournament. 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request.

ESPN has contracted 3G Wireless, LLC to provide a wireless camera system for coverage of the 2015 Men's NCAA South Eastern Conference Basketball Championship at the Bridgestone Arena in Nashville, Tennessee. Due to the extreme frequency congestion in the Nashville Area, coupled with the added congestion from traditional Television and News coverage of area events, 3G Wireless requests the use of these channels.

3G Wireless, LLC certifies that the operation of the requested channel for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA for the 2.2GHz telemetry band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote camera system for the event. The proposed service would enhance coverage of the events by providing on the spot pictures and camera control from mobile locations within the arena that would not otherwise be available to the production company.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
