In re Application of

3G Wireless, LLC
501 McCormick Drive, Suite B
Glen Burnie, MD 21061

To Operate in the 2400-24835 MHz and 216 - 225MHz bands to provide
TV coverage in the Los Angeles, California area.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 2400-24835MHz and the 216-225MHz Bands pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it special temporary authority to operate on the frequencies centered on 2406MHz with a 10MHz bandwidth and 218MHz with a 75KHz bandwidth from May 10, 2013, to May 16, 2013 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request for the live television transmission of "The Tour of California" road bicycle race. 3G Wireless submits that there are extraordinary circumstances warranting a grant of the STA request.

NBC Sports Network has contracted 3G Wireless, LLC to provide the necessary microwave for the live transmission of this eight stage event. Due to the extreme frequency congestion in Southern California, coupled with the added congestion from traditional Television and News coverage of the special event, 3G Wireless, LLC requests the use of channels in the 2400 – 24835MHz and the 216 – 225MHz Band. A complete map of the race stages can be found on the Tour of California web-site, <http://www.amgentourofcalifornia.com/Route/map.html>.

3G Wireless, LLC certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 2.4GHz band and the 216-225MHz band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations along the race route that would not otherwise be available to the production company. 3G Wireless, LLC is in the process of obtaining the consent of the relevant frequency coordinators for this project, including AFTRCC. AFTRCC has indicated its intent to forward the results of the coordination to the Commission.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:

Applicants Name: 3G Wireless, LLC
Address: 501 McCormick Drive, Suite B
Glen Burnie, MD 21061

Type and Manufacturer
Of Equipment: Janteq Campac-2

Power Output: 100mW

ERP: 1W

Emission: 10M00D7W
F3E

Frequencies:	2406.0000MHz	10M00D7W	Terrestrial
	218.0000MHz	F3E	Terrestrial

Area of Operation:

Southern California	250km
05/12/13 Stage 1 Escondido, CA	20km
05/13/13 Stage 2 Murrieta to Palm Springs, CA	40km
05/14/13 Stage 3 Palmdale to Santa Clarita, CA	30km
05/15/13 Stage 4 Santa Clarita to Santa Barbara, CA	60km
05/16/13 Stage 5 Santa Barbara to Avila Beach, CA	70km

Coordinates:

Stage 1 Escondido, CA:	N33 07 09.21 W117 05 07.04
Start	N33 07 01.27 W117 05 54.40
Finish	N33 07 01.27 W117 05 54.40
Receive site	N33 07 01.27 W117 05 54.40
Stage 2 Murrieta – Palm Springs, CA:	N33 41 59.52 W116 50 59.59
Start	N33 33 26.52 W117 12 42.99
Finish	N33 49 24.70 W116 28 31.43
