To operate at 2368MHz Telemetry Band in Boston Massachusetts.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate at 2368 MHz pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequency centered at 2368 MHz with a 16 MHz bandwidth from April 20 through May 19, 2014 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request to provide an RF camera to various baseball stadiums throughout the country. 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request.

ESPN has contracted 3G Wireless, LLC to provide a wireless camera system to operate within the Fenway Park in Boston, Massachusetts. Due to the extreme frequency congestion in the Boston Area, coupled with the added congestion from traditional Television and News coverage of area events, 3G Wireless requests the use of this channel.

3G Wireless, LLC certifies that the operation of the requested channel for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA for 2211 MHz would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote camera system. The proposed service would enhance coverage of the events by providing on the spot pictures and camera control from mobile locations that would not otherwise be available to the production company. 3G Wireless, LLC is in the process of obtaining the consent of the relevant frequency coordinators for this project, including AFTRCC. AFTRCC has indicated its intent to forward the results of the coordination to the Commission.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
