To Operate in the 1425 – 1530MHz and 2200-2290MHz Telemetry
Bands to Provide TV Coverage in Chattanooga, Tennessee.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 1425 – 1530MHz and 2200-2290MHz Telemetry Bands pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequencies centered at 1515MHz with a 16MHz bandwidth and 2211MHz, and 2271MHz with an 8MHz bandwidth from May 25, 2013 through May 27, 2013 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request for the Live Television Transmission of the Volkswagen USA Cycling Professional Road and Time Trial National Championships for NBC Sports. 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request.

NBC has contracted 3G Wireless, LLC to provide the necessary microwave for the Live Transmission of this Event. Due to the extreme frequency congestion in the Chattanooga area, coupled with the added congestion from traditional Television and News coverage of the special event, 3G Wireless requests the use of channels in the 1425-1530 MHz and 2200-2290MHz Telemetry Bands.

3G Wireless, LLC certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 1.4 and the 2.2GHz Band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the Network.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
