To operate on 2287MHz in the 2.2GHz Telemetry band in Denver, Colorado.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate on 2287MHz pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequency centered on 2287MHz with a 16 MHz bandwidth from June 05, 2015 through June 07, 2015 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request to provide an RF camera system for the Luke Bryan "Kick up the Dust" tour at Sports Authority Field in Denver, Colorado. 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request.

FlyHi Films has contracted 3G Wireless, LLC to provide a wireless camera system to operate within the stadium for the country music concert. Due to the extreme frequency congestion in Denver, coupled with the added congestion from traditional Television and News coverage of area events, 3G Wireless requests the use of these channels.

3G Wireless, LLC certifies that the operation of the requested channel for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA for 2287MHz would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote camera systems for television coverage. The proposed service would enhance coverage of the events by providing on the spot pictures and camera control from mobile locations that would not otherwise be available to the production company.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
