To Operate in the 2200-2290MHz Telemetry
Band to Provide TV Coverage in Chicago, Illinois, Dallas, Texas, and Washington, D.C..

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 2200-2290MHz Telemetry Band pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequency centered at 2276MHz with a 16Mhz bandwidth September 20, 2013 through November 18, 2013 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request for the Live Internet Transmission of the "Red Bull National Flugtag Day" event being celebrated in Burnham Park, Illinois, Lake Carolyn, Texas and at the National Harbor in Washington, D.C.. 3G Wireless submits that there are extraordinary circumstances warranting a grant of the STA request.

Red Bull Media has contracted 3G Wireless, LLC to provide the necessary microwave for the Live Transmission of this Event. Due to the extreme frequency congestion in Chicago, Dallas and Washington, D.C., coupled with the added congestion from traditional Television and News coverage of the special event, 3G Wireless requests the use of a channel in the 2200-2290MHz Telemetry Band.

3G Wireless, LLC certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 2.2GHz Band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this Event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the Production Company. 3G Wireless, LLC is in the process of obtaining the consent of the relevant frequency coordinators for this project.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
