To Operate in the 2360-2390MHz Telemetry Band
to Provide TV Coverage in New York, New York.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 2360-2390MHz Telemetry Band pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it special temporary authority to operate on the frequencies centered on 2368.0MHz with a 16 MHz bandwidth, and 2381.0MHz and 2387.0MHz with a 6MHz bandwidth from September 02, 2015 through September 03, 2015 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request for the live television transmission of "Impractical Jokers 100th Episode" in New York City. 3G Wireless submits that there are extraordinary circumstances warranting a grant of the STA request.

TruTV has contracted 3G Wireless, LLC to provide the necessary microwave for the live transmission of this event. Due to the extreme frequency congestion in the New York City area, coupled with the added congestion from traditional Television and News coverage of the special event, 3G Wireless, LLC requests the use of channels in the 2360-2390MHz Telemetry Band.

3G Wireless, LLC certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 2.3GHz bands would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations along the race route that would not otherwise be available to the Production Company. 3G Wireless, LLC is in the process of obtaining the consent of the relevant frequency coordinators for this project, including AFTRCC. AFTRCC has indicated its intent to forward the results of the coordination to the Commission.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
