To Operate in the 1435-1525MHz, 2200-2290MHz and the 2500-2690MHz Telemetry Bands to Provide TV Coverage in the Denver, Colorado area.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 1435-1525MHz, 2200-2290MHz and the 2500-2690MHz Telemetry Bands pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it special temporary authority to operate on the frequencies centered on 1456.0MHz, 1476.0MHz with a 16MHz bandwidth, 2264.0MHz, 2274.0MHz, 2284.0MHz, 2294.0MHz, 2504.0MHz, 2514.0MHz, 2524.0MHz, 2534.0MHz with an 8MHz bandwidth from August 07, 2017 through August 14, 2017 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request for the live television transmission of the "Colorado Classic" road bicycle race. 3G Wireless submits that there are extraordinary circumstances warranting a grant of the STA request.

Medalist Sports has contracted 3G Wireless, LLC to provide the necessary microwave for the live transmission of this four stage event. Due to the extreme frequency congestion in the Denver, Colorado area, coupled with the added congestion from traditional Television and News coverage of area special events, 3G Wireless, LLC requests the use of channels in the 1435-1525MHz, 2200-2290MHz and the 2500-2690MHz Telemetry Band. A complete map of the race stages can be found on the Velorama Colorado web-site, <https://www.veloramacolorado.com/colorado-classic/routes/>.

3G Wireless, LLC certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 1.4GHz, 2.2GHz and the 2.5GHz bands would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations along the race route that would not otherwise be available to the Production Company. 3G Wireless, LLC is in the process of obtaining the consent of the relevant frequency coordinators for this project, including AFTRCC. AFTRCC has indicated its intent to forward the results of the coordination to the Commission.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
