To Operate in the 2200-2290MHz Telemetry
Band to Provide TV Coverage in Las Vegas, Nevada.

ATTN.: Microwave Branch

3G Wireless, LLC hereby requests Special Temporary Authority (STA) to operate in the 2200-2290MHz Telemetry Band pursuant to Section 21.25 of the Commission's Rules. 3G Wireless, LLC requests that the Commission grant it temporary authority to operate on the frequencies centered on 2236MHz, 2256MHz and 2276MHz with a 16MHz bandwidth from October 15, 2015 through October 20, 2015 with intermittent usage. As explained below, 3G Wireless, LLC is filing an STA request for the Live Television Transmission of the Red Bull Media's "Air Race" at the Las Vegas Motor Speedway and the Monster Energy Cup at the Sam Boyd Stadium in Las Vegas, Nevada. 3G Wireless, LLC submits that there are extraordinary circumstances warranting a grant of the STA request.

Red Bull Media and Feld Motor Sports have contracted 3G Wireless, LLC to provide the necessary microwave for the Live Transmission of this Event. Due to the extreme frequency congestion in the Las Vegas area, coupled with the added congestion from traditional Television and News coverage of the special event, 3G Wireless requests the use of channels in the 2200-2290MHz Telemetry Band.

3G Wireless, LLC certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 2.2GHz Band would serve the public interest by enabling 3G Wireless, LLC to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures that would not otherwise be available to the Production Company

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
