Special Conditions:

- (1) Licensee should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee of this authorization will be subject to immediate shut down.
- (2) In lieu of frequency tolerance, the occupied bandwidth of the emission shall not extend beyond the band limits set forth above.

Special Conditions:

- (3) 3G Wireless should be aware that the band 2200-2290 MHz is allocated for federal satellite and fixed line-sight operations.
- (4) Non-federal use is on a case-by-case basis. 3G Wireless should have no expectations of automatic approval in this band in future submissions.
