Special Conditions:

- (1) Licensee should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee of this authorization will be subject to immediate shut down.
- (2) In lieu of frequency tolerance, the occupied bandwidth of the emission shall not extend beyond the band limits set forth above.
- (3) At the Harrison, NJ location, 3G Wireless must not utilize 2230 MHz +/- 3 MHz in order to protect Department of Interior operations in the area.
- (4) 3G Wireless should be aware that the band 2200-2290 MHz is allocated for federal satellite and fixed line-sight operations.
- (5) Non-federal use is on a case-by-case basis. 3G Wireless should have no expectations of automatic approval in this band in future submissions.
- (6) This frequency assignment in one of the bands 1435-1525, 2310-2320 and 2345-2390 MHz was coordinated prior to authorization with the Area Frequency Coordinator (AFC), who also coordinated it, as appropriate, with Aerospace and Flight Test Radio coordinating Council. Use of this frequency under the authority of this assignment is subject to such further coordination with the AFC, as necessary to ensure compatibility with existing uses.
