Special Conditions:

- (1) In lieu of frequency tolerance, the occupied bandwidth of the emission shall not extend beyond the band limits set forth above.
- (2) Licensee should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee of this authorization will be subject to immediate shut down.
- (3) At the New York, New York location the Department of the Navy has operations in 2204 - 2211 MHz and 2267 - 2274 MHz bands and those frequencies will not be available
- (4) The band 2200 - 2290 MHz is allocated to federal space operations and fixed/mobile (line of sight) service and non-federal use is on a case-by-case basis. 3G Wireless should not have any expectation of automatic approval on future submissions.
