Message:

Description of the Modification

By the instant application, 4-D Security Solutions, Inc. (?Applicant?) is seeking Commission authorization to modify its experimental license for Station WD2XZC.

Specifically, Applicant proposes to add a short range radar beacon (EL/2107) at 1760 New Durham Road, South Plainfield, New Jersey. As reflected on the application, the frequency band for this radar facility is between 5.35 to 5.50 GHz with output power and ERP of 0.1 watt and 2.0 watts, respectively.

Applicant is respectfully requesting that the Commission process and grant the instant application as expeditiously as possible. It should also be noted that the FCC Office of Engineering and Technology previously reviewed and granted Applicant?s request for expedited action with respect to Applicant?s original application for the above-referenced experimental license which was submitted to the FCC Office of Engineering and Technology on September 21, 2006 under File No.: 0554-EX-PL-2006.
