Subject: Additional Information Request

Message:

1) In my email to you from Jun 22, 2021, I requested LTAN value. You still haven't provided this. NASA requires LTAN for inclination angles of 96-100 degrees.

2) Your email response from July 08, 2021 suggests that you're changing the cubesat name again and the name is now TRSI2.

- a) Part A in the NTIA space record still has the old name satellite name TRSI4
- b) Do you have the correct satellite name in the SpaceCap file and Antenna patterns file (GIMS)?

3) DOD requires Power Flux Density from the satellite to the Earth and to the geostationary arch for the 8025-8400 MHz. Please provide this be in the form of an exhibit or e-mail that can be forwarded.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of July 14, 2021 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.

DO NOT Reply to this email by using the 'Reply' button. In order for your response to be processed expeditiously, you must upload your response via the Internet at <https://apps.fcc.gov/oetcf/els/index.cfm> by clicking on the "Reply to Correspondence" hyperlink.
