Subject: Additional Information Request

---

Message:

In response to Reference number 65893,

Please find our response per each request as follows:

- 1) Please provide a copy of the KSAT earth station license that will be used in coordination with this filing. the KSAT document has been attached
- 2) Please remove, or request additional licenses, for the 2 additional notices included in the spacecap, TRSI4 and HORIS. This experimental filing is only for one MyRadar spacecraft. TRSI4 and HORIS have been removed
- 3) The spacecap is missing orbital information for the MyRadar spacecraft. The orbital plane information in the Notice tab is missing. Please include all uplink information, to include earth stations, in the spacecap. SpaceCap has been updated to include orbital plane, uplink and earth stations and uploaded along with the GIMS files
- 4) The applicant will need to provide an updated NTIA document, to include all space-to-earth information (to include each receiving earth station) and all earth-to-space information (to include each transmitting earth station) the NTIA document has been updated and uploaded.

We request confirmation of receipt and thank you again for your time and support.
