Subject: FCC File No. 0205-EX-ST-2010

Message:

Dear Behnam,

File Number 0205-EX-ST-2010 is a new application for STA with the Los Angeles Sheriff's Department as applicant. AKELA Inc. is covering the fees and handling this application on behalf of the Los Angeles Sheriff's Department so that law enforcement officers may test and evaluate this radar in practical operation, on their premises and at their discretion. Even though AKELA Inc. holds a current STA (File # 0581-EX-ST-2009) for their own testing purposes, 0205-EX-ST-2010 will not be an extension of their existing STA.

Per the filing guidelines for Experimental Special Temporary Authorization, STAs are intended for experiments that will last no longer than six months, and this new application fits the filing guidelines.

Does Form 442 still need to be filed in this case?

Best regards,

Mei Su Wu
Electronics Engineer
