Registration #1055414 & 1055415

Return Date: 8/20/1998

Process Date: 8/19/98

Initials: DLL

Attn: Daniel Rezin
Antel International Inc
1300 Capital Drive
Rockford, IL 61109

Your 854 Application for Antenna Structure Registration for the structures you wish to register in Rockford, IL is being returned based on the following:

Your submitted copy of FAA clearance and our records both show that the FAA study 97-AGL-0106-OE cleared a 730' (222.5 meters) ground elevation and a 60' (18.28 meters) overall structure height for this tower.

Your FCC Form 854 was submitted with a 20 meters (66') overall structure height, which exceeds the FAA approved height.

Note: 1 foot = 0.3048 meters; ex: 60 x 0.3048 = 18.28 meters

Please verify your submitted data. If you find that it is more accurate than our records show for previous FAA approved data, you must obtain a new, current FAA clearance for your submitted data. You will need to complete the enclosed FAA Form 7460-1 and submit to your regional FAA office. FAA approval may take 4 - 6 weeks. Attach a copy of the FAA Form 7460-1 that you submit to the FAA to this letter and resubmit to the attention of Information Processing Branch at the Federal Communications Commission at the address in the above letterhead. We will hold your application, pending receipt of our copy of FAA's clearance letter. When you receive a copy of FAA's final determination, you may wish to fax a copy of it to our office, referencing the registration number, to expedite processing of your registration. Fax to (717) 338-2690.

If you find that our records of this structure's overall structure height to be accurate, attach a letter authorizing us to correct your original submission accordingly. **Resubmit with a copy of this letter** to the attention of Information Processing Branch at the Federal Communications Commission at the address in the above letterhead. We will then continue processing the registration of this structure.

PLEASE NOTE: You must act on the information provided in this letter and resubmit within 90 days of the return date on this letter or your registration will "purge" from our database. A resubmission after the 90 days will be assigned a new registration number.
