Dear Sirs;

ARINC Incorporated, Inc. seeks an experimental radio license to support a ground-based demonstration of a picocell system using GSM handsets.

This demonstration will be taking place at the Andrews Air Force with the cooperation of personal from the Andrews Air Force Base.

All operations by ARINC will be coordinated and approved by a PCS licensee, prior operation of the radio system.

Included for your information is the type approval certificate for the transmitting radio that ARINC would like to use.

Please contact our office should you require any additional information regarding this request. You may contact me at telephone number 410-266-4142, fax number 410-266-2047, or via e-mail at ccw@arinc.com.

Sincerely,

A handwritten signature in black ink that reads "Christopher Wheatley". The signature is written in a cursive style with a large, stylized "C" and "W".

Output is specified at the antenna terminals. The external antenna installation and operating configurations of this transmitter, antenna gain and cable loss must satisfy MPE categorical Exclusion Requirements of §2.1091. RF exposure compliance is addressed at the time of licensing, as required by the responsible FCC Bureau(s), including antenna co-location requirements of §1.1307 (b) (3). Users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.
