

---

**August 30, 2018**

**To Whom It May Concern:**

This is to certify that:

ARRIS/Ruckus Networks is a manufacturer of radio frequency equipment (WiFi access points).

The RF experimentation will be conducted by following a strict Test Plan defined and approved by ARRIS/Ruckus Networks in a controlled environment.

ARRIS/Ruckus Networks will have a Project Manager in place to specifically follow the Test Plan, track results, and publish test results.

ARRIS/Ruckus Networks has extensive RF experience and expertise with over 10 years developing and commercializing dozens of RF products and has a significant number of RF engineers on permanent staff.

For the above reasons, I believe ARRIS/Ruckus Networks meets the Eligibility criteria for an Experimental License as set forth in the Commission Rules.

Sincerely,

**ADAM** DEBELLE

Technical Marketing Manager

ARRIS
