Yes. Confirmed.

On Wednesday, November 18, 2015, John Kennedy <John.Kennedy@fcc.gov> wrote:

Mr. Ryan Bowden,

Pursuant to our telephone conversation this afternoon, please confirm that the radar being used under this STA, 1113-EX-ST-2015, is experimental and is not related to any SPS Certifications and that your radar is capable of notching 1227.6 MHz +/- 15 MHz (i.e., 1212.6-1242.6 MHz) and 1400-1414 MHz.
