Subject: Request for Info - File # 0057-EX-ML-2016

Message:

Hi Tony,

We've contacted the FAA to coordinate the 5.15 to 5.25 GHz frequencies. We were advised by the FAA Office in Austin to submit the FAA studies for the two fixed locations. The FAA studies have been submitted pending the determination.

The following are the FAA Study Numbers:

1. Location LAT: 30-28-46.8; LON: 97-46-49.3 (FAA Study #2016-ASW-3983-OE)
2. Location LAT:30-23-28.1; LON:97-45-05.8 (FAA Study #2016-ASW-3984-OE)

We will let you know as soon as we receive the determination of No Hazard from the FAA.

Thank you,
Angie Alvaran
